## New Achievements

Congratulations to Mark Hapka on passing his Commercial checkride!

---

## The Lance

The Lance Avionics upgrade has begun! The RC team will get busy by first removing things from the panel which is expected to take three to four weeks. They'll finish the mockup of the panel and will get confirmation of what's going back in.

In case you missed it, here is the [vision for the Lance upgrade](#).

Paul W will be taking over for Steve as the Maintenance Officer for the Lance.

---

## Members

We have two long term members leaving the club. Ruth J and Don K. Both have made a tremendous impact

the board for many years and Don as our Hangar Officer. Thanks to you both!

Thank  
You!

---

## Hangar #6

Now that we are done with the major repairs to the hangar, it's time to get the 6th hangar bay rented. If anyone knows of someone who might be interested let us know.

---

## Centerline

We are going to start a pilot with a new scheduling software called [Centerline](#). It's inspired by our experience at Flywell and what we wish AircraftClubs could do. Here is a [demo video](#) that we made a few weeks ago for the board.

We are going to start with scheduling the 182 with it and then roll it out to the rest of the aircraft and members after that.

If you are a 182 pilot, you will be getting an intro email shortly.
